

# Cookies:

In order to ensure the proper functioning of this site, we sometimes need to store small data files on our users' devices.

What is a cookie?

A cookie is a small data file that a website stores on your computer or mobile device when you browse it. For example, it allows us to remember your actions and preferences (username, language, font size and other display settings) over a period of time to ensure that you do not have to re-enter this information every time you visit this site or move from one page to another.

You may also be tracked by other third-party cookies when you navigate to other sites that use those third-party components.

How to control cookies?

You can check and/or delete cookies at any time. For more information, see [www.aboutcookies.org](http://www.aboutcookies.org). You have the option to delete all cookies that are already stored on your computer and set most browsers to block them. However, in this case, you may need to select certain parameters yourself every time you visit the site, and some services and features may not be available.

How do we use cookies?

Cookies of a technical nature

Some of our sites use cookies to remember:

- Your display parameters such as language, contrast and font size,
